BUDGET

ATTENTION BUDGET CUSTOMERS: The Budget Billing Program applications will be mailed with next month's bill; if you are a current participant in the Budget Billing Program, you do **not** need to reapply. Please read the agreement's terms and conditions, then contact the office with any questions you may have regarding the program.

PROGRAM

INTERESTED IN BUDGET BILLING: The Budget Billing Program applications will be mailed with next month's bills; if you are interested, then please carefully read the application's terms and conditions. A signed form must be in the office by close-of-business June 17, 2017 and the account must have a zero balance. If you have any questions, please contact the office.

ONLINE BANKING: If you utilize your banking institutions online payment system, you must verify that your Fountaintown Gas Co., Inc. account number is entered into the banking system correctly. An incorrect account number can delay and/or prevent the payment being posted to the correct account.

APRIL IS SAFE DIGGING MONTH and Fountaintown Gas Co., Inc. wants to remind all property owners to make an important call to 811 before digging on the property. Call at least two business days in advance.

When do you call Indiana 811?

- ⊕ Putting in a fence
- ⊕ Installing a mailbox
- ⊕ Planting a tree or shrubbery
- ⊕ Building a patio or deck
- ⊕ Excavating for a garden area
- ⊕ **Every digging project requires a call to 811; these are only a few examples.**

Here is the information you will need when you call:

- Your name and phone number
- Contractor name, address and phone number, when applicable
- County and Township where digging will occur
- Street address where digging will occur
- Nearest cross street to your project
- Type of work you will be doing
- How deep you will be digging
- Area of your property you need to have located
- Site contact name and their number

After you call 811; your utility companies will be notified to come out and mark your property with either flags or paint.

Every year there are approximately 170,000 underground utilities damaged by digging. One out of every three incidents is caused by someone who did NOT call 811 before digging.

Knowing where to dig can help prevent hitting an underground utility line that can harm the environment, may cause serious personal injuries, disrupt service to an entire area and potentially incur fines and repair costs.

REMEMBER: Calling before you dig is free. The service is free. It may save you money and it may save your life!

MAKE THE CALL, NOT A JUDGMENT CALL!
